

How Do I Use The Stallion Report?

Frequently Asked Questions

- Why are some of the horses in the Show Results section in red?

We've been working throughout the winter to gather sire and dam information on all the horses in the High Point REPORT. If we do not have the sire and dam information on a horse, the horse shows up in our show results in red.

If your horse shows up in red, please call our office with your horse's papers in hand so that we can make sure your horse's breeding records are up to date. Ask for Jan Ontiveros at 931-684-8123 or email her at Ontiveros@horsecworld.net.

- My horse has won this season and his points aren't showing under his stallion. What is wrong?

There are a couple of reasons his points might not show up. It might be that we don't have the sire and dam information for your horse. If so, his name will appear in red in the show results and you can call our office to give us that information. Or perhaps the show results did not reflect his registered name. For our information to be complete and correct, it is important that horses are shown according to their correct registered name. If your horse is not receiving points correctly in the High Point REPORT or the Stallion REPORT due to being shown under a different name, call our office to give us the details.

- I'd like to see how the stallions stack up as a percentage of the total offspring produced?

That's a great idea and one we are considering for our 2008 update. We're also gathering data for progeny searches so that you can search our database for full siblings and see how they've performed. You'll also be able to check your broodmare's bloodline against different stallions bloodlines and see how well they've crossed so far. If you have other ideas for information you'd like to see in the Stallion REPORT, please email our office at cparsons@horsecworld.net. We want to give you the information you need to make the best breeding decisions!

What I can learn...

- You can make better breeding decisions for your broodmare by seeing which sires are producing the offspring in the divisions you like, for example if you want Plantation Pleasure Lite Shod babies, or colts suitable for Youth classes.
- You can see which sire is doing best overall across all the categories.
- You can narrow it down to only the young horse classes by selecting Emerging Stallions and see who is siring the best new young horses. This category gives our young stallions a chance to shine. And you might see who's going to be "the next big thing" in breeding.

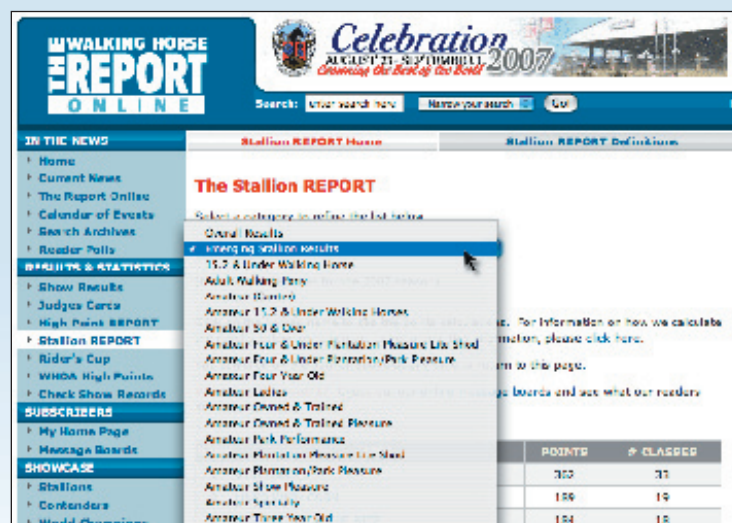

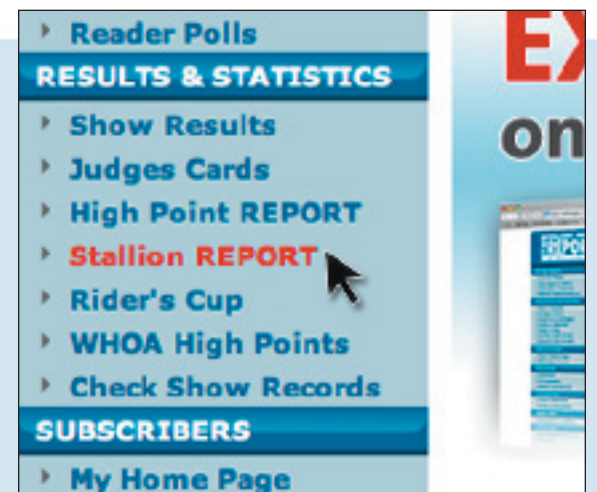

Where do I start?

In the left hand menu choose Stallion Report. This will take you to the Overall Results. Study the list. If you want more detail on a particular stallion, click on his name to see all the offspring that have earned points in the High Point REPORT, individually organized by the category they earned the points in. You can even

click on the name of the offspring to see at which shows he has earned the points.

When you think you have all the answers, check out the Emerging Stallions by returning to the Stallion REPORT Home and clicking on the Overall Results button. This will give you the complete list of categories we've used. Just under Overall is Emerging Stallions.

Emerging Stallions are the stallions that have offspring winning in categories for two-year-old, three-year-old, and four-year-old horses.

Finally, select categories that you enjoy watching to see how the stallions stack up in the individual areas. The sires leading the Plantation Pleasure Lite Shod category are very different than those leading the Open Two-Year-Old, so be sure you're picking a stallion who excels in the divisions you are breeding for.
