

How Do I See The REPORT Online?

Frequently Asked Questions

• When will this week's issue be online?

We post the issue as soon as it's printed, even before it's back in our offices in Shelbyville. That's every Friday of every week (except for our shutdown time at Christmas) and every day during the Celebration. Depending upon the size of that week's paper and how smooth our lock process goes, this could be anywhere from noon to four o'clock. We know you're waiting on it. We promise to hurry!

• What is Adobe Reader and how do I get it?

If you don't have adobe reader, you may go to the adobe website and download the free reader by going to www.adobe.com/products/reader.

Or your computer may prompt you to do so automatically.

• I've downloaded the PDF, how do I make it bigger?

Look at your tool bar for the percentage it is currently on your screen. You can click next to the percentage and then select a larger percentage. We would suggest starting at 200%.

You can also use the View menu at the top of the page and select Zoom In to increase the size of the page in small increments. Continue to Zoom In until the page is the size you desire.

What I can learn...

- You can see the horses for sale BEFORE anyone else, so you can select the best horses to purchase EVEN if you don't live in Middle Tennessee.
- You can see the action photographs of the horses that have won at shows across the country. Find out right away if they are as good as the grapevine says they are.
- Can't find your paper from three weeks ago? Can't stand waiting on the Postman to deliver? The three most recent issues of the Walking Horse Report are always online and you can see every page.

Where do I start?

In the left hand column, choose The Report Online. The three most recent issue dates will appear across the top of the middle white part of your screen. Click once on the issue date of your choice and it breaks down the paper into five page sections. Move your cursor down this list and each five page section breaks down to name the contents of each page for you. Click once on the page of your choice and it will appear on your screen.

If you'd like to see the page larger than it is within the website, you can click on View Page As PDF and it will download the PDF file to your computer. From here you can use Adobe Reader to View the page at a larger size (200% works nicely) or zoom in on particular parts of the page.

If you'd prefer, you can access The Report Online directly from the Main Home Page of the site. Locate the Latest Issues directly on the home page and select the issue of your choice. Small thumbnails of each page will appear across the top of your screen and you can browse through these by clicking once on each page to see it larger at the bottom of the screen.

Not large enough? See the paragraph above about downloading the PDF file to your computer.
